

EGA Emerging Global Shares Trust
Supplement dated March 1, 2013

to the Prospectuses and Statements of Additional Information for all series of EGA Emerging Global Shares Trust

Effective March 1, 2013, Emerging Global Advisors, LLC (“EGA”) has become the sole investment adviser to all of the series in the EGA Emerging Global Shares Trust (“Trust”). On February 28, 2013, the Board of Trustees for the Trust accepted the resignation of ALPS Advisors, Inc. (“ALPS”) as investment adviser to certain series of the Trust (“Funds”). In its capacity as sole investment adviser to the Funds, EGA will continue to provide the services and receive the compensation set forth under its existing advisory agreement with the Trust. All references to ALPS in its advisory capacity within the Trust’s Prospectuses and Statements of Additional Information are hereby removed.

Effective April 1, 2013, EGA will replace the current fee and expense structure with a unified fee (“Unified Fee”) for all of the series of the Trust. Under the Unified Fee, EGA will take on a contractual obligation to pay all ordinary operating expenses of the series of the Trust without any increase in EGA’s advisory fee. The series of the Trust are currently obligated to pay these expenses, although EGA has entered into annual voluntary expense waiver and reimbursement agreements that typically cap a series’ ordinary operating expenses at the same rate as EGA’s advisory fee. Under the Unified Fee, EGA shall pay all of the expenses of each series of the Trust, except for the fee payment under the investment advisory agreements between EGA and the Trust, payments under each series’ 12b-1 plan, brokerage expenses, taxes, interest, litigation expenses and other non-routine or extraordinary expenses.

Please keep this supplement for future reference.

EGA EMERGING GLOBAL SHARES TRUST

Supplement dated November 27, 2012 to the Summary Prospectus dated August 6, 2012 for the

**EGShares Brazil Infrastructure ETF
(the “Fund”)**

The disclosure under the headings, “Fees and Expenses” and “Example” is replaced in its entirety with the following:

Fees and Expenses

The following table describes the fees and expenses you may pay if you buy and hold shares of the Fund (“Shares”). You may also incur customary brokerage charges when buying or selling Fund Shares.

Annual Fund Operating Expenses (expenses that you pay each year as a percentage of the value of your investment)	
Management Fees	0.95%
Distribution and/or Service (12b-1) Fees	0.00%
Other Expenses	0.58%
Total Annual Fund Operating Expenses (1)	1.53%
Fee Waiver and/or Expense Reimbursement (2)	(0.68)%
Total Annual Fund Operating Expenses after Fee Waiver and/or Expense Reimbursement	0.85%

- (1) The fee table has been restated to: (1) remove from Other Expenses an excise tax of 0.03% paid during the fiscal year ended March 31, 2012, which is not expected to be incurred during the fiscal year ended March 31, 2013; and (2) reflect current Total Other Expenses as of September 30, 2012, the date of the Fund’s Semi-Annual Report. If the excise tax and the original Other Expenses had been included, Total Other Expenses would have been 0.56%, Total Annual Fund Operating Expenses would have been 1.51% and, because excise taxes are excluded from the expense cap established by the Agreement, Total Annual Fund Operating Expenses after Fee Waiver and/or Expense Reimbursement would have been 0.88%.
- (2) EGA Emerging Global Shares Trust (the “Trust”) and Emerging Global Advisors, LLC (“EGA”), sub-adviser to the Fund, have entered into a written fee waiver and expense reimbursement agreement (“Agreement”) pursuant to which EGA has agreed to waive a portion of its fees and/or reimburse expenses to the extent necessary to keep the Fund’s Total Annual Fund Operating Expenses (excluding any taxes, interest, brokerage fees, acquired fund fees and expenses, and extraordinary and other non-routine expenses) from exceeding 0.85% of net assets. The Agreement will remain in effect and will be contractually binding through July 31, 2013. If Total Annual Fund Operating Expenses would fall below the expense limit, EGA may cause the Fund’s expenses to remain at the expense limit while it is reimbursed for fees that it waived or expenses that it assumed during the previous three year period. The Agreement shall automatically terminate upon the termination of the Sub-Advisory Agreement or, with respect to a Fund, in the event of merger or liquidation of the Fund. The Agreement may be terminated at any time by the Board of Trustees of the Trust, but may not be terminated by EGA during the term of this Agreement.

Example

The following example is intended to help you compare the cost of investing in the Fund with the cost of investing in other funds. The example assumes that you invest \$10,000 in the Fund for the time periods indicated and then redeem all of the Shares at the end of those periods. This example assumes that the Fund provides a return of 5% a year and that operating expenses remain the same. This example does not include the brokerage commission that you may pay to buy and sell exchange-traded Shares of the Fund. Although your actual costs may be higher or lower, based on these assumptions, your costs would be:

1 Year	3 Years	5 Years	10 Years
\$87	\$417	\$770	\$1,766

EGA Emerging Global Shares Trust

	<u>CUSIP</u>	<u>NYSE Arca</u>

Before you invest, you may want to review the Fund's prospectus, which contains more information about the Fund and its risks. You can find the Fund's prospectus (including amendments and supplements) and other information about the Fund, including the Fund's statement of additional information and recent shareholder report, online at <http://www.emergingglobaladvisors.com/etfliterature.cfm>. You can also get this information at no cost by calling 1-888-800-4347 or by sending an e-mail request to info@egshares.com, or from your financial professional. The Fund's prospectus and statement of additional information, both dated July 30, 2012, as amended and supplemented from time to time, are incorporated by reference into this Summary Prospectus.

Summary Prospectus August 6, 2012

THE U.S. SECURITIES AND EXCHANGE COMMISSION ("SEC") HAS NOT APPROVED OR DISAPPROVED THESE SECURITIES OR PASSED UPON THE ADEQUACY OF THIS SUMMARY PROSPECTUS. ANY REPRESENTATION TO THE CONTRARY IS A CRIMINAL OFFENSE.

Not FDIC Insured. May lose value. No bank guarantee.

EGShares Brazil Infrastructure ETF

Investment Objective

EGShares Brazil Infrastructure ETF (the “Fund”) seeks investment results that correspond (before fees and expenses) to the price and yield performance of the INDXX Brazil Infrastructure Index (the “Brazil Infrastructure Underlying Index”).

Fees and Expenses

The following table describes the fees and expenses you may pay if you buy and hold shares of the Fund (“Shares”). You may also incur customary brokerage charges when buying or selling Fund Shares.

Annual Fund Operating Expenses

(expenses that you pay each year as a percentage of the value of your investment)

Management Fees	0.95%
Distribution and/or Service (12b-1) Fees	0.00%
Other Expenses:	
Excise Tax	0.03%
Other	0.53%
Total Other Expenses	<u>0.56%</u>
Total Annual Fund Operating Expenses	<u>1.51%</u>
Fee Waiver and/or Expense Reimbursement (1)	<u>(0.63)%</u>
Total Annual Fund Operating Expenses after Fee Waiver and/or Expense Reimbursement (2)	<u>0.88%</u>

(1) EGA Emerging Global Shares Trust (the “Trust”) and Emerging Global Advisors, LLC (“EGA”), sub-adviser to the Fund, have entered into a written fee waiver and expense reimbursement agreement (“Agreement”) pursuant to which EGA has agreed to waive a portion of its fees and/or reimburse expenses to the extent necessary to keep the Fund’s Total Annual Fund Operating Expenses (excluding any taxes, interest, brokerage fees, acquired fund fees and expenses, and extraordinary and other non-routine expenses) from exceeding 0.85% of net assets. The Agreement will remain in effect and will be contractually binding through July 31, 2013. If Total Annual Fund Operating Expenses would fall below the expense limit, EGA may cause the Fund’s expenses to remain at the expense limit while it is reimbursed for fees that it waived or expenses that it assumed during the previous three year period. The Agreement shall automatically terminate upon the termination of the Sub-Advisory Agreement or, with respect to a Fund, in the event of merger or liquidation of the Fund. The Agreement may be terminated at any time by the Board of Trustees of the Trust, but may not be terminated by EGA during the term of this Agreement.

(2) The Fund’s Total Annual Fund Operating Expenses include taxes, interest, brokerage fees, acquired fund fees and expenses, and extraordinary and non-routine expenses, which are excluded under the Agreement with EGA, as noted in footnote (1) above.

Example

The following example is intended to help you compare the cost of investing in the Fund with the cost of investing in other funds. The example assumes that you invest \$10,000 in the Fund for the time periods indicated and then redeem all of the Shares at the end of those periods. This example assumes that the Fund provides a return of 5% a year and that operating expenses remain the same. This example does not include the brokerage commission that you may pay to buy and sell exchange-traded Shares of the Fund. Although your actual costs may be higher or lower, based on these assumptions, your costs would be:

<u>1 Year</u>	<u>3 Years</u>	<u>5 Years</u>	<u>10 Years</u>
\$90	\$415	\$764	\$1,748

Portfolio Turnover

The Fund pays transaction costs, such as commissions, when it buys and sells securities or other instruments. A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund Shares are held in a taxable account. These costs, which are not reflected in annual Fund operating expenses or in the example, affect the Fund’s performance. During the most recent fiscal year, the Fund’s portfolio turnover rate was 30% of the average value of its portfolio.

Principal Investment Strategies

The Fund is an exchange-traded fund (“ETF”). The Fund seeks to achieve its investment objective by attempting to replicate the portfolio of the Brazil Infrastructure Underlying Index through investments in equity securities, including common shares traded on local exchanges, American Depositary Receipts (“ADRs”) and Global Depositary Receipts (“GDRs”). ADRs and GDRs represent ownership interests in shares of foreign companies that are held in financial institution custodial accounts, and are traded on exchanges in the United States and around the world. The Brazil Infrastructure Underlying Index includes companies whose businesses involve: construction and engineering, construction materials, independent power producers, metals and mining and wireless telecommunications services.

Under normal circumstances, the Fund will invest at least 80% of its net assets in Brazilian infrastructure companies included in the Brazil Infrastructure Underlying Index and generally expects to be substantially invested at such times, with at least 95% of its net assets invested in these securities. The Fund invests in Brazilian medium to large capitalization infrastructure companies, which are defined as emerging markets companies that are domiciled in Brazil and that have a market capitalization of at least \$200 million at the time of purchase.

The Fund’s intention is to replicate the constituent securities of the Brazil Infrastructure Underlying Index as closely as possible using ADRs, GDRs or ordinary local shares. In certain circumstances, when it may not be possible or practicable to fully implement a replication strategy, the Fund may utilize a “representative sampling” strategy whereby the Fund would hold a significant number of the component securities of the Brazil Infrastructure Underlying Index, but may not track the index with the same degree of accuracy as would an investment vehicle replicating the entire index.

The Fund will concentrate its investments (i.e., hold 25% or more of its net assets) in a particular industry or group of industries to approximately the same extent that the Brazil Infrastructure Underlying Index is concentrated. The Brazil Infrastructure Underlying Index is a free-float capitalization weighted stock market index comprised of 30 leading emerging markets companies that INDXX, LLC determines to be representative of Brazil's infrastructure sectors. A free-float index is one that only uses freely traded shares in calculating the market capitalization weighting.

Principal Risks

Like all investments, investing in the Fund entails risks, including the risk that you may lose part or all of the money you invest.

Equity Securities The price of one or more of the equity securities in the Fund's portfolio may fall. Many factors can adversely affect an equity security's performance, including both general financial market conditions and factors related to a specific company, industry or geographic region.

Market Price Variance As an ETF, the Fund's Shares generally trade in the secondary market on the NYSE Arca, Inc. (the "Exchange") at market prices that change throughout the day. Although it is expected that the market price of Fund Shares will approximate the Fund's net asset value per Share ("NAV"), there may be times when the market price and the NAV vary significantly. You may pay more than NAV when you buy Shares of the Fund on the Exchange, and you may receive less than NAV when you sell those Shares on the Exchange.

Non-Correlation The Fund's return may not match the return of the Brazil Infrastructure Underlying Index. The Fund incurs a number of operating expenses that are not reflected in the Brazil Infrastructure Underlying Index, including the cost of buying and selling securities. If the Fund is not fully invested, holding cash balances may prevent it from tracking the Brazil Infrastructure Underlying Index.

Market Liquidity for Fund Shares As an ETF, Fund Shares are not individually redeemable securities. There is no assurance that an active trading market for Fund Shares will develop or be maintained. Active market trading of Fund Shares may cause more frequent creation or redemption activities and to the extent such creation and redemption activities are not conducted in-kind could increase the rate of portfolio turnover and the Fund's tracking error versus the Brazil Infrastructure Underlying Index.

Non-Diversification The Fund is non-diversified and, as a result, may have greater volatility than diversified funds. Because the Fund may invest a larger percentage of its assets in securities of a single company than a diversified fund, the performance of that company can have a substantial impact on the Fund's Share price.

Infrastructure Concentration Because the Brazil Infrastructure Underlying Index is concentrated in the infrastructure sector of Brazil, the Fund may be adversely affected by increased price volatility of securities in that sector, and may be more susceptible to adverse economic, market, political or regulatory occurrences affecting that sector.

Foreign Investment Foreign investments may be more volatile because of economic or political developments, public health and safety issues, demographic changes, market inefficiencies, lack of regulatory oversight, or a higher risk that essential investment information may be incomplete, unavailable or inaccurate. Restrictions on currency trading may be imposed by foreign countries, which may adversely affect the value of the Fund's portfolio securities.

Emerging Markets Investments in emerging market securities are subject to even greater risks than for foreign investments generally, including increased risks of: illiquidity of securities; price volatility; inflation or deflation; restrictions on foreign investment; nationalization; higher taxation; economic and political instability; pervasive corruption and crime; less governmental regulation; and less developed legal systems.

Foreign Currency The value of an investment denominated in a foreign currency could change significantly as foreign currencies strengthen or weaken relative to the U.S. dollar. Risks related to foreign currencies also include those related to economic or political developments, market inefficiencies or a higher risk that essential investment information may be incomplete, unavailable or inaccurate.

Brazil Because the Fund only invests in Brazilian securities, its NAV will be much more sensitive to changes in economic, political and other factors within Brazil than would a fund that invested in a greater variety of countries. The Brazilian economy has experienced in the past, and may continue to experience, periods of high inflation rates. While the Brazilian economy has experienced growth in recent years, there is no guarantee that this growth will continue.

Mid-Cap Companies Medium capitalization companies may have greater volatility in price than the stocks of large capitalization companies due to limited product lines or resources or a dependency upon a particular market niche.

Liquidity In certain circumstances, the Fund might not be able to dispose of certain holdings quickly or at prices that represent true market value in the judgment of EGA, sub-adviser to the Fund, preventing the Fund from tracking the Brazil Infrastructure Underlying Index.

Depositary Receipts Changes in foreign currency exchange rates will affect the value of ADRs or GDRs and, therefore, may affect the value of the Fund's portfolio.

Performance

The performance information that follows shows the Fund's performance information in a bar chart and an average annual total returns table. The information provides some indication of the risks of investing in the Fund by comparing the Fund's performance with a broad measure of market performance and the index the Fund seeks to track. The Fund's past performance (before and after taxes) is not necessarily an indication of how the Fund will perform in the future. For the most current month-end performance data please visit www.emergingglobaladvisors.com or call (888) 800-4347.

After-tax returns are calculated using the historical highest individual federal marginal income tax rates and do not reflect the impact of state and local taxes. Actual after-tax returns depend on an investor's tax situation and may differ from those shown. In addition, the after-tax returns shown are not relevant to investors who hold Shares through tax-deferred arrangements, such as 401(k) plans or individual retirement accounts.

Annual Total Return as of December 31

During the periods shown in the bar chart above the Fund's highest quarterly return was 7.72% (quarter ended December 31, 2011) and the Fund's lowest quarterly return was -28.98% (quarter ended September 30, 2011).

Year-to-date return (through June 30, 2012): 4.63%

Average Annual Total Return as of December 31, 2011

	<u>1 Year</u>	<u>Since Inception (2/23/10)</u>
Return Before Taxes	-9.30%	4.80%
Return After Taxes on Distributions	-10.75%	3.63%
Return After Taxes on Distributions and Sale of Fund Shares.....	-6.05%	3.42%
INDXX Brazil Infrastructure Index (reflects no deduction for fees, expenses or taxes)	-12.65%	5.90%

Management

Investment Adviser

ALPS Advisors, Inc.

Sub-Adviser

Emerging Global Advisors, LLC

Portfolio Manager Richard C. Kang is the lead portfolio manager for the Fund and is responsible for the day-to-day management of the Fund's portfolio. Mr. Kang has managed the Fund since its commencement of operations in 2010.

Purchase and Sale of Fund Shares

Unlike conventional mutual funds, the Fund issues and redeems Shares on a continuous basis, at NAV, only in Creation Units consisting of 50,000 Shares. Individual Shares may only be purchased and sold on the Exchange through a broker-dealer. Shares of the Fund will trade at market prices rather than NAV. As such, Shares may trade at a price greater than NAV (premium) or less than NAV (discount).

Tax Information

The Fund's distributions are taxable and generally will be taxed as ordinary income, capital gains, or some combination of both, unless you are investing through a tax-deferred arrangement, such as a 401(k) plan or an IRA.

Financial Intermediary Compensation

If you purchase the Fund through a broker-dealer or other financial intermediary (such as a bank), EGA may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary's website for more information.
