Corrected Net Asset Value for EGShares Brazil Infrastructure ETF

NEW YORK —August 31, 2015— In accordance with NYSE Arca Equities Rule 5.3(i)(2), Emerging Global Advisors, LLC, the investment adviser to the EGShares exchange-traded funds (ETFs), announced today that it has revised the August 26, 2015 net asset value (NAV) per share for the fund listed below. The discrepancies were due to a technical malfunction of the fund's third-party administrator. An ETF's NAV does not represent the market price at which an investor may trade shares of the ETF on the NYSE. The closing market price of the Fund on that date remains unchanged.

Fund	Ticker	iNAV	NAV	Variance
EGShares Brazil Infrastructure ETF	BRXX	6.56	6.48	-0.08

Investors should carefully consider the investment objectives, risks, charges and expenses of a Fund before investing. To obtain a prospectus containing this and other important information, please call (888) 800-4347 or visit www.egshares.com to view or download a prospectus online. Read the prospectus carefully before investing.

Emerging market investments involve risk of capital loss from fluctuation in currency values, differences in accepted accounting principles, economic or political instability or increased volatility and lower trading volume. This Fund is non-diversified and, as a result, may have greater volatility than diversified funds. The Fund's returns may not match the returns of the underlying indexes. Investments in small- and mid-cap companies are generally more volatile. Diversification does not ensure profit or protect against loss.
